#### **\* *Journey of the Universe: An Epic Story of Cosmic, Earth and Human Transformation*;**

Produced by Yale faculty members Mary Evelyn Tucker and John Grim, this film received an Emmy® Award for Best Documentary from the Northern California Chapter of the National Academy of Television Arts & Sciences in San Francisco, June 9, 2012. Created and written by Tucker and evolutionary philosopher Brian Thomas Swimme, the one hour documentary is an epic story of cosmic, Earth, and human transformation.

Over the past two millennia Christians have lived with several shifts in the predominate cosmology. In what ways might the present shift in a cosmological world view impact us today?

**\*\* *Care for Creation: A Franciscan Spirituality of the Earth***, by Ilia Delio, Keith Douglas Warner and Pamela Wood, 2008, St. Anthony Messenger Press, may be ordered through [Amazon.com](http://Amazon.com) (Please use the Amazon link from our website!) Our book discussions will follow its four sections each looking at the theme from three perspectives: science, theology and integration.

**\*\*\* *The View from the Center of the Universe: Discovering our Extraordinary Place in the Cosmos***; In this 1 hr. video, Joel R. Primack, Ph.D., one of the world's leading cosmologists, and Nancy Ellen Abrams, a cultural philosopher and writer, use recent advances in astronomy, physics, and cosmology to frame an exciting new way to understand the universe as a whole and our role in it. They evoke a compelling new vision of why we matter in the universe and how we might begin to embrace it again and call it home.

We conclude the series with a "hands on" practical session at Trinity United Methodist Church on **Sunday, Oct. 2 at 4 pm**. Presentations and discussions are hosted by Barry Turner, Caro Hall, Bob Pelfrey, John Horsley, Joe Morris and Michael Eggleston.
